Do You Do Your Own Work?

Yes? Then you should use P. & G. Naphtha Soap.

It is just what you need.

It is a time-saver, a money saver and a labor-saver.

It does better work, with cold or lukewarm water, than ordinary laundry soap and hot water.

Buy a cake. Try it.

You will find that it will make the clothes cleaner, sweeter, brighter, whiter than they ever were before—in half the time and with half the effort it now takes.

Use it in the kitchen—for the dishes, for the floors, for painted walls, for pots and pans. It is just as valuable for such purposes as for washing clothes.

It is a hard soap and a cake of it will do a remarkable amount of work. It is a white soap and can be used for any number of purposes for which yellow laundry soaps are unsafe and unsatisfactory.

The French Lingerie, just received within recent weeks, is, of course, correct in every line, and makes a remarkable exhibition.

The Exhibition of Women's Waists

The new Walsts are radically changed. First, you will notice the long sleeves, then you will find that all are made of soft fabrics with brilliant lustre, such as satins, messalines, crepe meteor, chiffon cloth, also plain and figured nets. The new colors give an added touch of originality to the styles—taupe, wistaria, rieties as well as the staple and comfortabe shapes. We Cunard, electric, old blue, calawba, vieux rose, navy blue, hunter's green and olive. There are novelties in trimmings as well, the most striking of which are the metal effects in silver and gold. The imported waists show exquisite hand embroideries on nets, voiles, crepon cloth and marquisette, and there are exquisite waists

of real Irish lace. The exhibition is unusually beautiful. The Silk Petticoats are also made of soft clinging silks, such as messaline and silk jersey cloth be delighted to see the sp.endid collection of models shown with messaline flounces. They are shown in white, pink, blue, heliotrope, taupe, wistaria, hunter's green, old
